Office 920-682-0375 Fax 920-682-2838

April 25th, 2018

To All Subcontractors and Suppliers:

Vinton Construction Company is considering bidding on several projects as a prime contractor in the Wisconsin Department of Transportation letting Tuesday, May 8th, 2018. We are interested in obtaining subcontractor or material quotes for this project in all work categories. We are willing to accept quotes in areas we may be planning to perform ourselves as required by federal rules.

Please fill out the attached form whether you plan to quote on this project or not, and if you will be quoting, please mark what work items you are interested in performing. Your response should be faxed to our office at 920-682-2838, or through the WisDOT Bid Express Small Business Network. Please make every effort to have your quote in our office by 5:00 p.m. the evening prior to the letting date to be considered.

Plans, Specifications and Addenda(s) are available through the Wisconsin Department of Transportation D.B.E. Support Services Office or at the Highway Construction Contract Information (HCCI) site at <http://roadwaystandards.dot.wi.gov/hcci/>.

We recommend that you use the WisDOT Bid Express Small Business Network. We will continue to offer the traditional method (receiving quotes by fax), but have found that exchanging prices via the internet on the bidding service is very efficient and virtually error-proof. You can use the Vinton quote sheet or attach your own. If you have questions on how to use this you can call our Office Manager Barb, and she would be happy to help you.

Our office hours are 7:00 a.m. thru 5:00 p.m. Monday thru Friday. If you need information, clarification, or assistance in preparing your quote, you may call John Streu in our Manitowoc office prior to the letting at 920-682-0375.

Sincerely,

VINTON CONSTRUCTION COMPANY

John Streu js/emb
